

PROFILE

We created PORTA NOVA in order to approach the security of armored doors from the perspective of a unique design, high aesthetics and functional luxury.

We create future-oriented products based on our experience of four decades, deep know-how, highest-standard technical infrastructure and specially trained work force.

We focus on all types of doors and can fulfill every possible architectural requirement by applying truly innovative ideas.

PORTA NOVA is an original creation of NEOCHRIM, a group that has been successfully producing safe-deposits, strong-boxes and other high-security products since 1971.

TOTAL QUALITY

In an industry where everybody focuses on cost, PORTA NOVA keeps its focus on quality.

For us, the customers satisfaction is of the highest importance. Heavy emphasis has been placed on raw materials, research & development, safety and education of staff to ensure the highest of standards in quality of product and service.

TOTAL SAFETY

Two international first prizes, our products' burglar resistance certification according to the European standards ENV 1627 as well as our ISO 9001 quality assurance certification, warrant the lifelong guarantee provided for PORTA NOVA products and services.

PORTA NOVA provides 100% tailor made entrance doors pleasing every demanding architectural challenge.

The flexibility of materials provide the extra possibility of usage in outdoors main entrance constructions that are exposed to any weather conditions.

For apartments PORTA NOVA also offers a wide range of design doors in 3 different security levels.

It's possible to choose from many colors, materials and special aesthetics, satisfying even the most eclectic tastes.

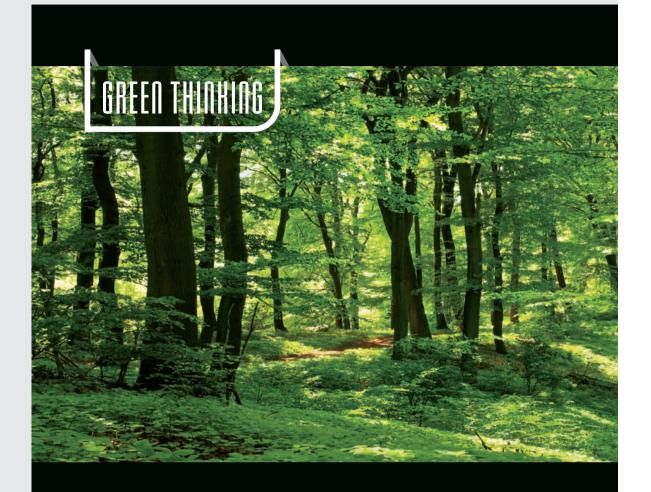

PORTA NOVA has become a multinational company and continues to expand in new markets.

Today, over 10% of its turnover is coming from exports and this number is steadily rising.

The transportation and the delivery of the products is taken under heavy consideration.

PORTA NOVA's packaging system ensures safe delivery of the doors anywhere in the world.

PORTA NOVA is constantly working on becoming more environmentally friendly.

Every year the company is aiming to reduce its energy consumption and increase it's recycle quantities.
